**URGES EMERGENCY CURRENCY ISSUE
FOR RELIEF OF MONEY STRINGENCY**

WE need a greater elasticity in our currency. Provision should be made for an emergency currency. The issue should, of course, be made with an effective guaranty, and upon conditions carefully prescribed by the government. Such emergency issue must be based on adequate securities approved by the government, and must be issued under a heavy tax. This would permit currency being issued when the demand for it was urgent, while securing its retirement as the demand fell off.
